Following the 4-week trial period, there is a monthly fee for using Klopotek Cloud: To operate this service, you only need a browser on any of your devices; you don't have to pay for any additional IT infrastructure costs.

What will you get? Choose the best-of-breed apparoach to managing Contracts, Rights, and Royalties

Klopotek CRR (Contracts, Rights & Royalties) is used for calculating the royalties for more than 1.9 M author contracts on more than Euro 5.0 B publishers' revenue annually. It is the preferred solution of the publishing industry. We contribute to the success of more than 400 publishers with more than 3,000 imprints, with over 24,800 users, in 140+ locations.

Klopotek CRR guarantees the correctness of your statements. Manual editing of the statements that have been processed by the system is not necessary.

STREAM development follows an exceptionally user-centric approach that creates an unrivaled user experience on top of the functional power of the Klopotek solution. Klopotek Cloud makes available a large number of STREAM web apps via your browser.

How does it work? State-of-the-art support for your publishing processes at low cost

As Klopotek Cloud makes use of a shared organization and infrastructure, it is a costeffective alternative to operating a system on premise. Your data is available to you only; our data centers provide a high level of security. Start working immediately, in an easy way, using a configuration based on best practices; the number of your processes in the Cloud can grow with your business requirements. STREAM, our modern, cloud-based platform for a great User Experience on any type of device, is operated on a shared instance (available 24/7) providing process optimization and a fast roll-out.

Opting for Klopotek Cloud (standard version) will give you 24/7 access to these STREAM web apps without any configuration effort

Contract 360°

Enables your editors to get a clear overview, as all information about contracts & the associated payments to an author is available in a complete 360° wiget-based dashboard.

Contract Manager

Supports your users in all acquisition processes of intellectual property with a wizard guiding through all steps for creating contracts.

Royalty Accounting Manager Manage all important details for cal-

culating and managing royalties in one app; see all relevant data at a glance on your dashboard.

Royalty Sales Data Editor

Makes it a simple task for your royalty department to edit & correct erroneous sales lines; single items can be amended manually, while multiple sales lines are updated in a bulk action.

Reporting & Analytics

Make use of predefined reports & data sources for interactive reporting and data analysis tailored to the needs of the publishing industry. (Renewal License powered by Pentaho)

Author 360°

You will get a complete 360° view on all author information using a configurable, widget-based dashboard.

Working with STREAM is fun: You will benefit from harmonized processes across your entire organization.

Royalty Recipient Manager

Manage all important details regarding authors, agencies & beneficiaries – taking into account the laws and rules of author associations in different countries.

Contact Manager

Business partner and address information is available at the touch of a button; update processes of contact data are easy.

Product 360°

As your basic master information center, this app displays all key product information in a complete 360° view with a fully configurable, widget-based dashboard.

Title Metadata Editor

Get your title information easily and quickly into the system, guided by an optimized workflow.

Title Structure Manager Create your product families.

Klopotek STREAM

Training made easy

During your 4-week trial period, you'll get one hour of daily training for two weeks from one of our experts. A Q/A session concludes each week.

In-depth training can be ordered to take place in the form of personal workshops or as web training sessions. Klopotek Cloud makes use of STREAM technology. The learning curve for STREAM is minimal, so users are trained and can be productive in short time. Plus, as a result of our unified design approach, if you know how to use one app, you know how to use all apps.

Unrivaled pricing starting from

EUR 135 / month / Klopotek Cloud user (standard version)

EUR 75 - 250 / month / reporting for all users

EUR 30 / month / user of the 'read only' option for just accessing data

Are there more options? Select add-ons tailored to your individual needs

Klopotek Cloud can also provide a number of additional services to your company (you pay only for what you choose) – get the full benefit

Authors Online

Let your authors & agencies access this web portal for downloading their statements and thus save costs; your royalty data is safe and reliable.

Rights Sales Solution

Get a clear overview of available rights and track interests & options; always have accurate information at hand; make use of software support for contract negotiations, agreements, and accounting – you'll have more time for marketing your rights.

Component Contracts

Allows you to sell your content in chapters, chunks, or other elements. Your costs for handling metadata will not increase, and products, components, and structures are linked to contracts, so all sales will be handled correctly for the royalty calculation. of our Rights Sales Solution for handling your sales offers, contracts, and rights revenue accounting processes.

Contract Workflow Manager Free your royalty department from incorrect calculations & errors leading to a high workload: using this app, metadata and contract

E-Signature

sync & integrated.

Enables you to use electronic signatures of your authors for contract management; paperwork & manual archiving is no longer necessary, as all information is stored in the Cloud.

wording, and versions are kept in

Multi Location, Currency, Language

Perfect if you run several companies: our solution provides support in one instance for global usage (for different countries, metrics, currencies, languages) and handles all royalties correctly.

Write-Off

Displays views on the royalty writeoff calculated by the app and allows manual modification (changes will be calculated on the fly); results of automated write-off procedures are available to financial accounts.

Stock Movements

Provide your authors with detailed stock information (as an additional service) on their royalty statement.

Klopotek Analytics

for CRR Premium

Allows you to create your own reporting and analysis environment tailored to your individual needs: use your own data sources, customized dashboards & various types of reports; the Klopotek BI & Integration team can assist you. (Renewal License powered by Pentaho)
