

Author 360°

Quick access to all your author information, tailor-made for each user's workplace and device

As your basic information center for details about royalty recipients, Author 360° provides a complete 360° view on all author information to the various functional types of users in your organization with a configurable, widget-based dashboard. It also provides seamless and fast jump-out functionality to other applications of our CRR suite.

Author 360° is directly connected to key applications in the area of contracts, rights, and royalties, but can also jump to Product 360° and thus to the Title Management, Editorial, and Production area of our solution.

Recent activities which have been done using the app are stored, and 'top authors' you work with every day can be bookmarked. This application runs on STREAM, Klopotek's cloud-based platform for optimized user interaction on computers and mobile devices.

Author 360°

The screenshot displays the Author 360° web application interface. At the top, there's a header with the 'WEB' icon and 'Author 360°' text. Below this, a user profile for 'Ella un. Known' is shown with roles: Customer (BSD), Royalty Recipient, Contributor (web app). The main dashboard is divided into several sections:

- ROYALTY CREDITOR DETAILS:** Includes 'Document Provision' (Provide Electronically, Provide Electronically from Notification to) and 'Payable Accounts' (No payable accounts available at the moment).
- AUTHOR TAXATION:** Includes 'Tax Directives' (S.Tax Required: Not registered, S.Tax Withheld, Tax Number, Inc.Tax Withheld: NO) and 'Tax Exemption' (Simplified Rep. Proc., Tax Exemption No., Tax Exemption Ref. No., Tax Exemption from, Tax Exemption until).
- CONTACT DETAILS:** Address: Mrs. Ella un. Known, 15 Rodeo Drive, Los Angeles CA 90035. Email: ella.known@klopotek.uk. Phone: +1/555/555. Website: www.klopotek.co.uk.

	CIN: Indexer	

KEY FEATURES AND BENEFITS

- 360° view of author details: information center for jumping to other applications
- Central entry point from author perspective to the CRR area (Contracts, Rights, and Royalties) of our software; direct link to TEP area (Title Management, Editorial, and Production)
- Can be used as entry point for all interactions with your royalty recipients, to view contracts, to check royalty statements, etc.
- Bookmarks; recent activities
- Arrange widgets on your personalized dashboard as desired

Arrange widgets to create your personal dashboard

The content and overall look and feel of every dashboard can be individualized, providing high-level to granular information based on the needs of role and responsibilities of the individual user.

The layout of the widgets has been designed to present their content in the most efficient way: all the necessary information is presented at one glance.

There are four widgets that can be included in your dashboard:

Author Taxation

- Displays taxation information for the royalty recipient

Contracted Products

- Provides a clear overview of all products created by the selected author

Product Involvement

- Lists all the products / contributions a royalty recipient has been involved in

Royalty Creditor Details

- Displays the basic information regarding the individual payable accounts belonging to a royalty recipient
- Also shows whether the royalty recipient receives their royalty statements electronically (in Authors Online or by email)
