KLOPOTEK PRESS RELEASE

Klopotek Software & Technology Services Italia sponsors Mini IAD Bari

Klopotek Software & Technology Services Italia will be present as a sponsor at the Mini Italian Agile Day (IAD) at the University of Bari on 10 March 2018. This event is being organized by the Apulian software development communities in cooperation with the Italian Agile Movement with the goal of promoting the principles and the culture of the Agile.

In its two software development offices (located in Berlin and Gioia del Colle), Klopotek has adopted Agile methodologies in order to best define development processes and quality checks. Employing the Agile helps to increase efficiency and to work in international teams: this is Klopotek's experience gained in ERP projects for large publishers with high standards in terms of design and quality.

The Mini IAD Bari will take place on 10 March 2018 at the Campus Universitario "Ernesto Quagliariello" at the Università degli Studi di Bari Aldo Moro – Dipartimento di Informatica (Via Orabona 4, Bari).

The event will be opened with a plenary session; parallel sessions and workshops will follow.

For more information, visit the website of the event:
